

The importance of being scentsitive.

PROMOTING A SCENT AND ODOUR-FREE CAMPUS

Did you know there are people on campus who have an environmental allergy or a sensitivity to scents and odours? Some items such as scented hygiene products, lotions, cologne, perfumes, or even food can trigger symptoms and reactions, including:

- Headaches
- Dizziness
- Nausea
- Skin irritation
- Shortness of breath

Langara is committed to providing a safe campus for everyone. Please learn more about our guidelines for a scent and odour-free environment because when everyone is healthy, we can all do our best work.
