

SAMPLE COURSE OUTLINE

Course Code, Number, and Title:

NURS 3165: Nursing Practice V: Adult as Client III (B): Mental Health

Course Format:

[Course format may vary by instructor. The typical course format would be:]

Lecture 0 h + Seminar 15 h + Lab 0 h

Credits: 2.5

Transfer credit: For information, visit bctransferguide.ca

Course Description, Prerequisites, Corequisites:

This guided group-based course provides opportunities for students to learn and to begin developing their nursing practice and leadership skills. Students will have opportunities to work with individuals, families, and groups, experiencing health challenges in the promotion of health and healing, within the context of mental health and home health care settings.

The course focuses on the core concepts of critical thinking, evidence-informed decision-making, health promotion, and relational practice. Emphasis will also be placed on the student's ability to use the College of Registered Nurses of British Columbia's (CRNBC) professional practice standards at the term 5 level.

Prerequisite(s): A minimum "C+" grade in BIOL 2292, NURS 2209, 2221, 2260, and 2261; and an "S" grade in NURS 2263.

Corequisite(s): NURS 3130, 3160, 3161, and 3164.

Students are not eligible for an aegrotat or deferred standing in this course. See Policies E2007 and E2011.

Please do not register for any courses on practice days as Nursing Practice may be scheduled during the evening hours.

Registration restricted to students admitted to Nursing program

Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Be an independent, self-directed, self-reflective, and life-long learner who is an accountable professional
- Be aware of the requisite skills and abilities required to attain the entry-level registered nurse competencies
- Develop a strong foundation in nursing theory, concepts and knowledge, health sciences, humanities, informatics, research, and ethics
- Practice nursing from a culturally safe manner within the context of a health promotion/population health perspective and guided by an ethic of caring
- Make competent, safe, and ethical decisions using critical inquiry based on multiple ways of knowing, and evidence-and informed research
- Work collaboratively with diverse client populations and all members of the health care team
- Establish respectful, therapeutic, caring, and culturally safe relationships with clients and health care team members based on appropriate relational boundaries
- Work in a variety of health care settings
- Refine technical and time management skills and develop proficiency with practice experience.
- Create and influence the future of nursing practice at a political, social, and professional level by responding to and anticipating the changing needs of society
- Recognize the limitations of their individual experience and knowledge, and seek guidance from experienced practitioners
