
Student Success \ Speed-reading

KAVEH FARROKH (PH.D.)

Summarize and Review Your Learning

ONCE YOU FINISH READING YOUR CHAPTER, DON'T JUST CLOSE THE BOOK AND DEPART...

- Make sure that key concepts and topics have “sunk in”.

SELF-TESTING TO HELP YOU SUMMARIZE AND REVIEW

- Give yourself a short and quick timed quiz to see if you can recall the main concepts and topics AND to see how well you have understood them.
- You can also draw a mind map or concept map to help you with the quiz – this is especially helpful in making links between the key concepts.

MAIN OBJECTIVE OF SELF-TESTING AFTER READING

- To see how well you have understood the content in terms of your upcoming exam(s).
- Identify where you have misconceptions (misunderstanding concepts) and falsified recall (flawed recall of information and facts).
